

Ignite student engagement

Why is engagement important?

RESEARCH ON STUDENT ENGAGEMENT

Increasing student engagement in the learning process has the following positive outcomes:^{1,2,3}

- Increases student attention and focus
- Improves construction of knowledge
- Promotes creative thinking
- Increases engagement in higher-level critical thinking
- Promotes achievement of learning objectives
- Improves student satisfaction
- Decreases K-12 student dropout rates

How to ignite engagement

Research shows that educators who adopt a student-centered approach note positive impacts on student engagement.

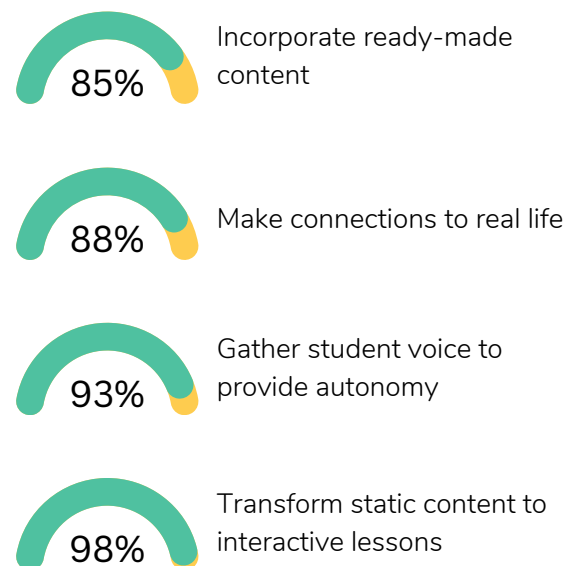

Student-centered approaches that ignite engagement:

- Use of active learning strategies
- Interactive lesson delivery
- Involving student voice (autonomy)
- Connecting learning to real life
- Creating opportunities for students to learn from each other

Educators use Lumio in different ways to ignite engagement:

**LUMIO IS MOST FREQUENTLY USED FOR
INCREASING STUDENT ENGAGEMENT AND
COLLABORATION BY OUR EDUCATORS!**

LUMIO FEATURES THAT HELP INCREASE STUDENT ENGAGEMENT

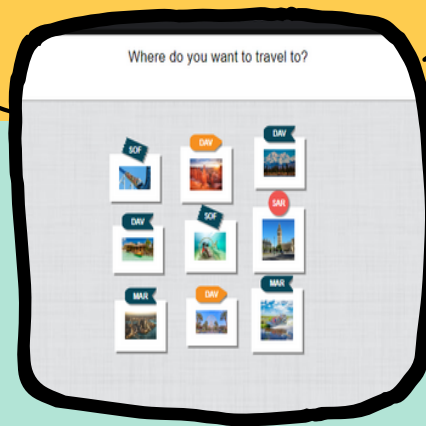

Whole-class Whiteboards

Use a ready-made KWLQ (Know, Want to know, Learned, Questions) graphic organizer to activate prior knowledge.

Convert a page to a whole-class whiteboard for students to make predictions and inferences.

Use a ready-made graphic organizer to elevate student voice through collaborative brainstorming.

Add a whole-class whiteboard while delivering a lesson to capture student thinking.

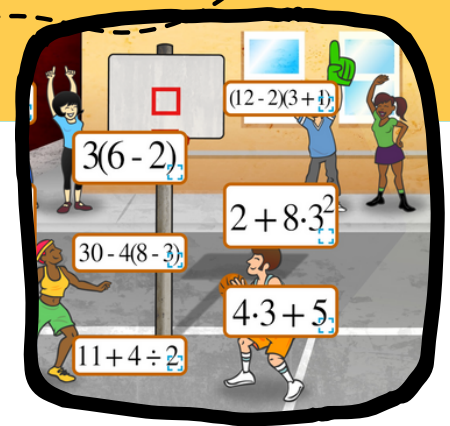

Shout It Out!

Pose open-ended questions for instant brainstorming and discussion to provide equal, active opportunities for students to share and develop their voice and ideas.

Create opportunities for safe practice with anonymous student contributions.

Try a categorized Shout It Out! activity to get a quick view of student understanding.

Shout It Out! is available only in Teacher-paced mode

Game-based Activities

Customize learning with the Monster Quiz or Team Quiz activities to build student interest and competition.

Deepen higher-order thinking skills using an opinion-based Rank Order activity to gather student insights and spark class discussions.

Create a choice board using a Flip Out activity to personalize student learning.
